Pathways Operations Manager Internship - Summer 2019

Job ID: 730153 | Amazon Fulfillment Germany GmbH

City: national_wide; Starting Date: At the earliest possible; Duration: 10-12 weeks; Renumeration: -

Task

As a Pathways Intern, you will be based for 10-12 weeks in an Amazon Fulfillment Centre where you will complete a high-priority project with a view to delivering significant impact to our operations.

- Your project will include the design of a new process or strategy and will require you to deep dive into data in order to test and implement your solution and ensure its scalability across our larger network. In order to achieve this, you will be collaborating with senior leaders, technology development teams, data warehouse experts, and front line associates. Leveraging the various skills and knowledge of our network will enable you to think broadly about viable solutions to the most complex challenges we face in Customer Fulfillment.
- Your 10-12 week internship will culminate in a presentation to management of any new innovative solutions and recommendations that you have based on your observations and analytical research.
- Should your Internship project have a significant and positive impact to our operations, you could be offered a full-time position on the Pathways Program for you to begin once you've graduated.

Qualifications

BASIC QUALIFICATIONS

- You are currently enrolled in an MBA, PhD or MSc tertiary-level course in logistics, science, engineering or a similar field.
- If an MBA/MSc student, you've gained professional experience in busy operational logistics, supply chain, manufacturing or transportation environments.
- Demonstrable decision-making skills, enabling you to use sound reasoning as and when required; you can consult others in achieving consensus.
- Solid analytical skills, a sound business judgment and strong oral and written communication.
- You are fluent in English and the local language of your requested Internship location.

PREFERRED QUALIFICATIONS

Bonus skills:

- You have gained previous experience in setting, monitoring and improving KPIs, as well as similar metrics.
- Successful track record in supporting customers, both internally and externally. Knowledge of lean, six sigma and kaizen techniques and methodologies would be advantageous.
